

# THE ADVANTAGES OF LEARNING A SECOND LANGUAGE.

## **1. ENCOURAGES EMPATHY**

Children who learn more than one language are likely to exhibit a greater degree of empathy.

## **2. IMPROVES BRAIN FUNCTION**

Bilingual children often excel in planning, problem-solving, concentration, and multi-tasking.

## **3. SPEEDS UP LEARNING**

Children who speak a second language typically have better reading, writing and maths skills.

# HOW TO HELP YOUR CHILD LEARN A SECOND LANGUAGE.

## 1. START EARLY

The sooner you introduce your child to a new language, the better. Their brains will have more time to process the distinct sounds of a new language.

## 2. USE RESOURCES

You don't need to be fluent in the language - there are many useful online tools and resources that can expose your child to a second language.

## 3. DISREGARD MYTHS

Teaching a child more than one language does not confuse them, but they may take longer to develop their vocabulary in each language.
