

HAPPY WORLD SIGHT DAY

DID YOU KNOW?

That children who are not performing at the expected level might have a learning-related visual problem?

SIGNS YOUR CHILD MAY HAVE A VISUAL PROBLEM:

- Short attention span.
- Difficulty remembering what he or she read.
- Seeing double.
- Tilting their head to one side.
- Avoiding reading and other close activities.
- An eye turning in or out.
- Difficulty with certain sporting activities such as catching a ball.
- Frequent eye rubbing or blinking.
- Covering one eye.
- Frequent headaches.
- Holding reading materials close to the face.
- Losing place when reading.
