

# HOW IT IS MADE: PICK N PAY SCHOOL CLUB VIROBAG PENCIL BAGS

Each Pick n Pay School Club pencil bag is made from PET plastic bottles that have been recycled in South Africa.

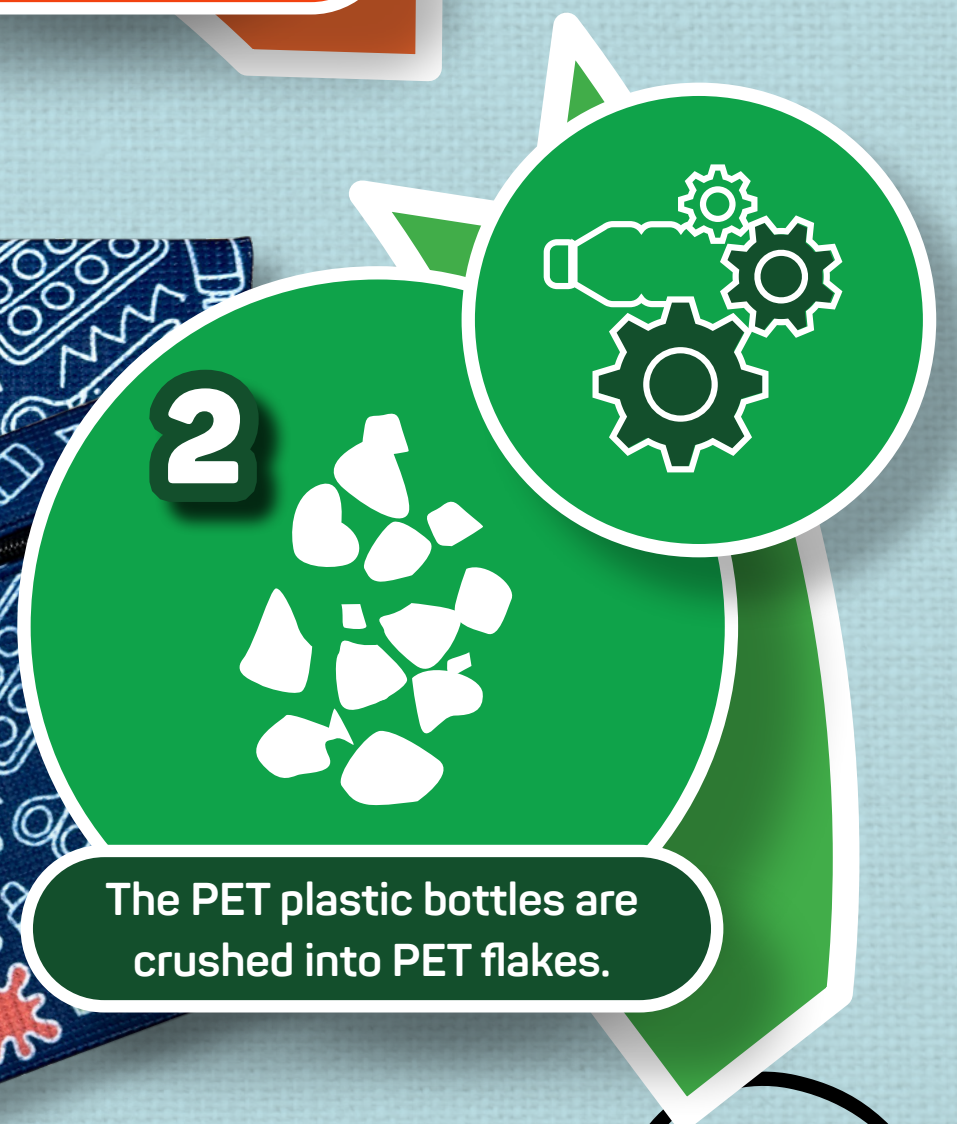

If a plastic bottle has a little triangle with a '1' in it, then we know that the bottle is made from PET plastic.

The fabric is printed and hand sewn into new pencil bags!

PET plastic bottles are collected and sorted.

The PET plastic bottles are crushed into PET flakes.

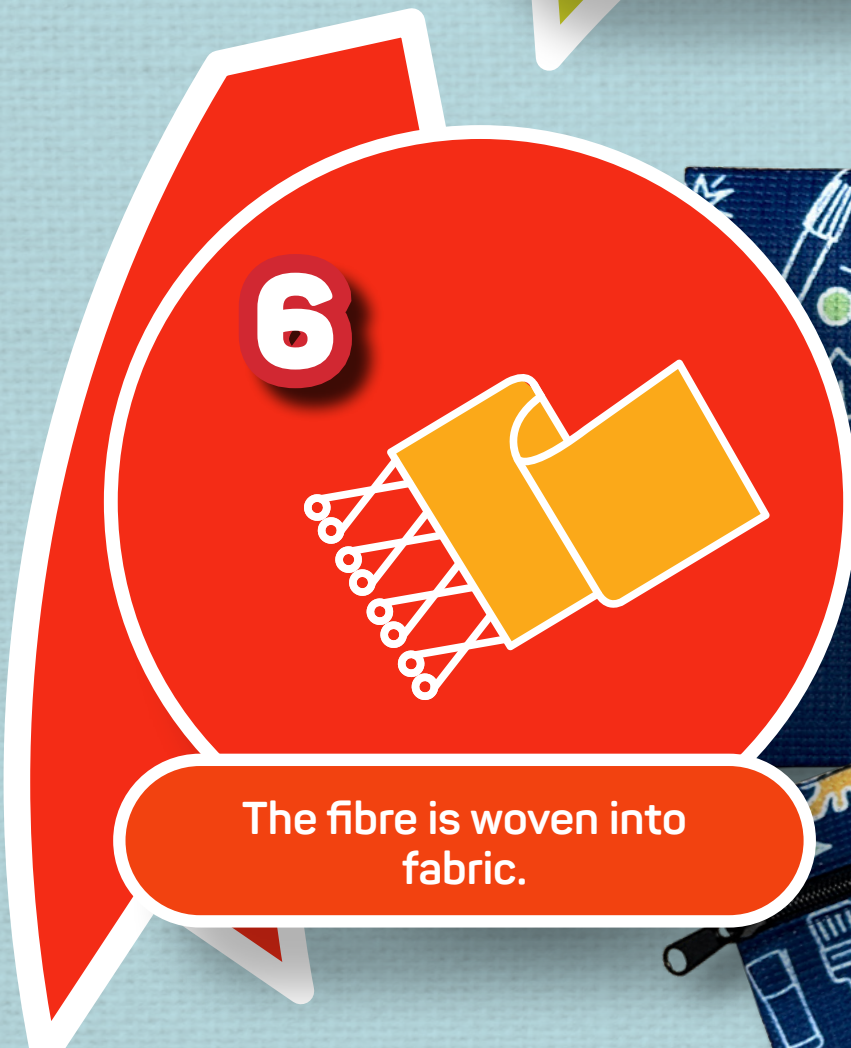

The PET flakes are washed.

The PET flakes are pressed into chips.

These recycled PET chips are then spun into fibre.

The fibre is woven into fabric.

Made from one 500ml recycled PET plastic bottle!
