

# Let's create coloured flowers

**Source:** <https://www.mychildcareacademy.com/5-easy-science-experiments-for-kids/>

# Items you'll need:

4 white flowers

Food colouring in 4 different colours

4 glasses of water

**Pour 30 drops of food colouring into  
each glass (one colour per glass)**

**Source:** <https://www.mychildcareacademy.com/5-easy-science-experiments-for-kids/>

Trim the flowers so  
they fit into the glasses

Source: <https://www.mychildcareacademy.com/5-easy-science-experiments-for-kids/>

**Gently place the flowers  
into the glasses**

**Source:** <https://www.mychildcareacademy.com/5-easy-science-experiments-for-kids/>

Watch as the flowers  
begin to change colour!
