HAVE YOU HEARD OF E-WASTE?

E-waste refers to **electronic** products which are **thrown away** or **no longer used**. This includes anything with **plugs**, **cords** or **electronics components** - like TVs, computers, cell phones, game consoles, battery-operated toys, or even electric toothbrushes!

DID YOU KNOW?

According to the United Nations, e-waste is the fastest-growing type of rubbish in the world! A record 62 million tonnes of e-waste was produced in 2022 - that's enough to fill 1.55 million big (40 tons) trucks! ^[1]

WHAT SHOULD WE DO WITH OUR E-WASTE?

You can take your e-waste to a special recycling bin!
Find the closest one: Scan the QR code or go to

www.eranpc.co.za

Our friends at ERA (E-Waste Recycling Authority) have set up over 100 e-waste bins in stores all over the country!

Remember, recycling is the right thing to do!
